**TARIFF FORMAT**

- A. **Sheet Numbering** - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, occasionally, when a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. **Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd Revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their tariff approval process, the most current sheet number on file with the Commission is not always the sheet in effect. Consult the Check Sheet for the sheet currently in effect.
- C. **Paragraph Numbering Sequence** - There are four levels of paragraph coding. Each level of code is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.1.
- D. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find if a particular sheet is the most current on file with the Commission.

The timing of the call occurs when called party answers and terminated when either party hangs up.

For all services except month-to-month "1 Plus" and 800 service and calling cards, the minimum call duration for billing purposes is six (6) seconds with six (6) second billing increments thereafter. For all calling cards, the minimum call duration for billing purposes is thirty (30) seconds with six (6) second billing increments thereafter. These increments apply unless otherwise noted in this Tariff.
- 3.1.3. Any portion of an applicable increment, after the appropriate minimum time for the call, will be rounded upward to the next increment. Calls less than the minimum length will be rounded to the minimum length.
- 3.1.4. There is no billing for incomplete calls.
- 3.1.5. The rate for Company's service is based on the following factors:
- The monthly calling volume; and
  - The duration of the call; and
