Make Data and Voice Easy

Your communications are seamless with integrated access for voice and data traffic over just one circuit. CIMCO netSelectSM Integrated combines both services on a single T1 or PRI so you don't have to maintain separate networks.

netSelectSM Integrated Fixed

These static options allow you to specify your voice or data bandwidth allocation.

Package	Details	Available Speeds
Standard	<ul style="list-style-type: none"> • Internet Access • 6 Voice Lines • Internet Utilization Reporting • Router Reporting (Optional) 	768k to 1M
Elite	<ul style="list-style-type: none"> • Internet Access • 8 Voice Lines • Internet Utilization Reporting • Router Reporting (Optional) 	512k to 1M
Platinum	<ul style="list-style-type: none"> • Internet Access • 10 Voice Lines • Internet Utilization Reporting • Router Reporting (Optional) 	512k to 768k
Integrated PRI Fixed	<ul style="list-style-type: none"> • Internet Access • From 11 to 17 Voice Lines • Battery Backup System • Internet Utilization Reporting • Router Reporting (Optional) 	384k to 768k

netSelectSM Integrated Flexible

CIMCO netSelect Integrated Flexible automatically optimizes bandwidth over usage, with voice traffic always having priority over data. As voice traffic increases, bandwidth is dynamically decreased on the Internet, and vice versa as Internet traffic increases.

Package	Details	Available Speeds
Standard	<ul style="list-style-type: none"> • Internet Access • ATM-Based Integrated Access Device • Up to 24 Lines (Analog T1), Minimum of 12 Voice Lines • Battery Backup System 	1.5M
Elite	<ul style="list-style-type: none"> • Internet Access • ATM-Based Integrated Access Device • Up to 24 Lines (Digital T1), Minimum of 12 Voice Lines • Battery Backup System 	1.5M
Platinum	<ul style="list-style-type: none"> • Internet Access • ATM-Based Integrated Access Device • Up to 24 Lines (PRI) • Battery Backup System 	1.5M
