

An Informational User Guide for:

Auto Call Back

Call Back The Last Number That Called You

1. Depress *69 on a touch tone phone (1169 on a rotary phone).
2. You will hear a recording stating the phone number, data and time of the last caller.
3. To connect to that telephone number press 1. If you do not wish to call that number you can just hang-up.
4. If you depress 1 and the line is busy, you will automatically be entered into a Repeat Dialing situation (please see the User Guide for Repeat Dialing for further details).

Canceling Automatic Callback Requests

1. Dial *89 (1189 on a rotary phone) and a recorded message will confirm the cancellation.

Important Features

- Automatic Callback only works for your incoming calls. To return your last outbound call use Repeat Dialing.
- This feature returns only the last incoming call received, whether the call was answered or missed.
